

## INTA KRASNOVA

1. Innovative, economically substantiated solutions to improve the efficiency of apple and raspberry production and fruit quality, No. 18-00-A01620-000025 (2018 - 2023)
2. Production of biodegradable polymers from renewable sources for the development of edible coatings and packaging materials for fruits. No.19-00-A01612-000004 (2019-2022)
3. Experimental (Pilot) development of plant-derived organic milk ice-cream (hemp and soy) with various berry, fruit and vegetable additives (2019-2020)
4. Development of new vegetable - edamame growing technology in organic production, No. I7-00-401620-000004 (2018 - 2021)
5. ERAF project Nr. 1.1.1.1/16/A/094 „Environment-friendly cultivation of emerging commercial fruit crop Japanese quince – *Chaenomeles japonica* and waste-free methods of its processing” (2017-2020)
6. Advancement of non-technological innovation performance and innovation capacity in fruit growing and processing sector in selected Baltic Sea Region countries (InnoFruit). Interreg Baltic Sea Region program (2016 - 2019)
7. Sustainable plant ingredients for healthier meat products - proof of concepts (SUSMEATPRO). ERA-Net (2015-2018)
8. Collaborative Research Project of Latvian Council of Science Nr. 672/2014 “Scientific and technological developments for sustainable cultivation and comprehensive use of sea buckthorn” (2014–2017)
9. State Research Program Nr. 10-4/VPP-7/3 “Biological processes influencing sustainable fruit growing and widening possibilities for use of by-products” (AgroBioRes) (2014–2017)
10. ERDF project No.2013/0059/2DP/2.1.1.1.0/13/APIA/VIAA/022 “Development of innovative fruit and berry processing technologies” (2014)
11. ERAF project "Development and adaptation of risk reducing innovative fruit and berry growing technologies in Latvia", No. 2010/0317/2DP/2.1.1.1.0/10/APIA/VIAA/142 (2010 – 2013)
12. State Research Program Nr. 10-4/VPP-5/4 “Sustainable use of local resources (earth, forest, food and transport) – new products and technologies” (NatRes) (2010–2013)
13. EUREKA Project Nr. E! 6240 “Development of new products from plant material for health improvement and cosmetics” (2010–2012)
14. ERDF project No.2010/0246/2DP/2.1.1.1.0/10/APIA/VIAA/159 „Use of sea buckthorn vegetative parts for development of prophylactic products with high antioxidative effect” (2010-2012)
15. ESF project No.2009/0228/1DP/1.1.1.2.0/09/APIA/VIAA/035 „Scientific capacity building in fruit-growing, forestry and information technology sectors, providing research on environmentally friendly growing strategies, product development and introduction aided by computer technologies” (2009-2012)
